CONNECTION TO CAUSE

ABOUT YOUNGCARE

Youngcare is a not-for-profit organisation creating choice and independence for young people (aged 16 – 65) with high physical support needs by providing fully accessible and age-appropriate disability housing, grants for equipment and home modifications and support through a free support service. Youngcare is creating a future where every young person has the freedom and choice to live the young lives we all deserve.

This is your chance to be a part of the solution as Youngcare works towards a future where every young Australian, irrespective of their care needs, has the freedom to choose where they live, who they live with and how they live their lives.

THE ISSUE

Suitable and appropriate supported housing is one of the greatest areas of unmet need for people with disabilities in Australia. Currently, there are thousands of young people being left behind in aged care, hospital rooms, rehabilitation centres – institutionalised accommodation – simply because there is nowhere else for them to go.

Youngcare is boldly tackling this national issue by acting as the conduit for industry, government and community to work together to bring much needed change to the disability housing sector.

“ 74% of Australians classified as having a severe or profound disability are not satisfied with their life. It's simply unacceptable.”

- GREG JOHNSON (YOUNGCARE CEO)

“The Youngcare 10 Peak challenge is a brilliant way to challenge yourself at the same time as raising much needed funds for young people with high support needs. The challenge took me out of my comfort zone and isolated me in more ways than one. Its hard, its cold, its exhilarating at times, but the friendships and experiences you have during the challenge can not be bet. This is something I will never forget.”
