About Youngcare

Right now, too many young people in Australia with full-time care needs are living in aged care and too many young people with high care needs are being left behind in inappropriate housing. Youngcare believes all young people deserve young lives, regardless of their care needs.

Youngcare, a nationally registered charity and not-for-profit organization formed in 2005, aims to provide choice in care and housing for young people with high care needs.

Through the combined support of the community, business and government, Youngcare aims to deliver greater choice to individuals through a range of initiatives, including:

- Youngcare Connect information and support hotline
- Youngcare Specialist Disability Accommodation
- Youngcare At Home Care Grants
- Youngcare Home Support Grants
- Disability advocacy

About Youngcare's Home Support Grants

Support to move back home, or to make a new one

The Youngcare Home Support Grants provide essential funding to assist people in moving from inappropriate housing, such as aged care, rehabilitation, or hospital, into somewhere more appropriate. This may involve returning home or transitioning to more specific housing for their needs, such as Specialist Disability Accommodation (SDA).

Up to \$5,000 is available for people with extreme functional impairment caused by a physical disability. This funding can be used for essential equipment, home modifications and services, household items, and utilities to ensure an improvement in the individual's quality of life. We encourage you to call us to discuss further and to access the application form.

“When Youngcare came to help me move out of aged care and into my apartment, it was like ‘The Great Escape’. I have so much more independence now, and I can live my life again.”

– Brenda, grant recipient
